

**Assistant Clinical Professor of Mental Health and Well-Being
School of Human Environmental Sciences
University of Kentucky**

Responsibilities: This is a twelve-month (non-tenure eligible), Clinical Title Assistant Professor, position at the University of Kentucky. The position will be held within the School of Human Environmental Sciences. The anticipated distribution of effort is 95% Extension, 5% Service. The distribution of effort is reviewed annually and may include teaching effort in the future.

Our colleague will provide statewide leadership in the areas of mental health and well-being; expectations include:

- Provide leadership in planning, delivering, and evaluating research-based youth and adult mental health Extension programming.
- Develop educational materials, develop and conduct in-service training for county agents, and collaborate with resident faculty and other Extension specialists, county agents, and state-wide stakeholders to address the mental health and well-being related needs of diverse families.
- Implement applied research relative to the needs of Kentucky families and publish findings in refereed journals.
- Establish and maintain a strong, extramurally funded Extension programming that enhances the lives of Kentucky families.
- Participate in departmental and collegiate governance and professional organizations.
- Contribute toward the College strategic plan goal of producing “innovative solutions through multidisciplinary collaborations.”

This position is expected to support mental health and well-being programming with an emphasis on serving rural and limited resource populations, in addition to providing technical assistance to County Extension Agents and local community partners to promote mental health and emotional well-being across KY.

Qualifications: Doctoral degree in Social Work, Nursing, Developmental Psychology, Counseling, or a closely related field from an accredited program. Licensure or certification in mental health field preferred. A commitment to the interdisciplinary nature of the School of Human Environmental Sciences and Family and Consumer Sciences Extension is expected. Experience with Extension and/or outreach program development, delivery, applied research, and publications are strongly desired.

Candidate must display a commitment to excellence in teaching in different instructional/learning settings. This includes excellence and contributions in a student-centered environment that nurtures and challenges learners to achieve at high levels with commitment to a systemic approach to family life and a commitment to diversity.

School of Human Environmental Sciences: The School of Human Environmental Sciences works to improve the quality of individual and family life through education, research, and outreach. This multidisciplinary unit focuses on building assets of individuals and families to address the perennial problems faced by families across the lifespan.

Application Procedure: Application must be submitted online at the University of Kentucky website: <https://ukjobs.uky.edu/postings/458638>. Application additionally requires a cover letter of application including a combined statement of Extension applied research interested and vision for their program with assessment strategies at the University of Kentucky (limit six pages), a curriculum vita (with hyperlinks to available materials as appropriate), a statement of teaching philosophy, and the names and contact information for three references. Employment at UK is subject to fund availability and comes with diverse rewards, focusing on your total wellbeing and career development, with leadership striving to provide a strong work-life integration. The university generously contributes to employees' retirement plans, medical coverage, and life insurance. In addition, UK offers optional

benefits such as dental and vision insurance, additional retirement plans and much more. To learn more about these benefits, please visit: www.uky.edu/HR/benefits.

Timeline: The search committee will begin reviewing materials May 1st, 2023, and continue until the position is filled. Anticipated start date by September 1st, 2023.

The Environment: The College of Agriculture, Food and Environment (CAFE) is *fulfilling the land-grant promise* of educational excellence, civic leadership, transformational research, and shared knowledge serving the common good. We *serve the people* of the Commonwealth and across the world through education, outreach, service, and research by finding solutions to improve lives today and create a sustainable future. We integrate teaching, research, and extension in our work. We recruit, retain, and graduate students who are competent, responsible, and workforce ready. For more than 130 years, CAFE has provided research results to the community. From traditional labs and research farms to high-tech diagnostic and research centers, we offer science-based, practical solutions that affect the everyday lives of Kentuckians and people around the world. Our Cooperative Extension programs are engaged in Kentucky's 120 counties, identifying and addressing needs not only in agriculture and natural resources, but also 4-H and youth development, family and consumer sciences, as well as community & economic development. We create a welcoming and inclusive environment that allows our faculty, staff, and students to reach their highest potential. We recognize people with diverse backgrounds and experiences are essential to decision making, problem solving, and innovation each and every day.

The University of Kentucky is a university with approximately 22,000 undergraduate and 8,800 graduate students. UK is Kentucky's flagship university and a land grant institution. We have a university commitment to improve the lives of Kentuckians and beyond and that is why [environmental stewardship and sustainability](#) are core parts of our institution's legacy. We are recognized as a [Tree Campus USA](#) by the Arbor Day Foundation, a [Gold level Bicycle Friendly University by The League of American Bicyclists](#), and are recognized as a [STARS \(Sustainability Tracking, Assessment & Rating System\) Silver Rating](#) by the Association for the Advancement of Sustainability in Higher Education. The university is geographically near downtown Lexington, which offers the vibrancy of an urban location while being in close proximity to working landscapes and recognized wilderness areas. It is a thriving community of 320,000+ with a strong commitment to quality of life, education, and the arts. Lexington is in the Bluegrass Region, an internationally acclaimed cultural landscape and agricultural region.
